A ROLL IN THE DIRT

TTE Skincare introduces Natural Exfoliation—a unique natural clay and water treatment that sloughs away rough skin. The creamy substance is spread over the body, using a featherlike touch from the esthetician's fingertips. As the clay begins to penetrate, dead cells are loosened and exfoliated. The one-hour treatment leaves skin supple and soft. 888-784-4372, info@tigerseyeskinicare.com
